

TECHNICAL REQUIREMENTS FOR MEDIACENTER TECHNOLOGY:

Browser Test

All livestream users/viewers must access the meeting with an HTML 5 supported web browser. To confirm if you are ready to participate in a web meeting, please take the browser test before the day of the meeting.

<http://events.commpartners.com/webcasts/browsertest/>

Below are more specific user requirements for the web technology.

Minimum System Requirements:

- 2.0Ghz Processor or faster
- 2 GB RAM (Greater than 2 GB recommended)

Minimum Browser Requirements:

Browser must support HTML-5. To detect your browser version, run <https://whichbrowser.net/>

- Windows 7 or later
- Mac OS X 10.9 or later
- Chrome 60 or greater
- Firefox 52 or greater
- Edge 14 or greater
- Safari 10 or greater
- iOS 10 or greater
- Internet Explorer 11

IP Addresses and Ports to Allow for HTML5:

72.32.161.112 port 80, 443 (web and audio)

72.32.200.104 port 80, 443 (web and audio)

72.32.221.65 ports 80, 443 (web and audio)

72.32.221.66 ports 80, 443 (web and audio)

67.203.7.114 ports 80, 443 (web and audio)

Other Recommendations

- It is recommended that you use a PC or MAC with an updated Internet Browser.
- Make sure you have pop-ups blockers disabled in your Internet browser settings.
- Make sure that your internet browser is Active X enabled.
- Wifi is not recommended. The problem with WiFi is signal strength can vary causing bandwidth to increase or decrease.
- We recommend a wired connection. A wired connection gives a consistent signal and consistent bandwidth. A wired connection provides a better experience.

- Audio (sound) is projected through your computer speakers. Be sure your computer is equipped with speakers or the room where the conference is being broadcast is equipped with speakers so you can hear the presenters.
